

Go Beyond WebEx™-Type Training Limitations

Important New Training Conferencing Benefits

The Learn.net **eTutor Conferencing** solution goes beyond WebEx-type training solutions, at much lower costs, with all of the capabilities of traditional collaboration tools...and many more. **eTutor Conferencing** benefits are outlined below; its unique capabilities - when integrated within training systems - are summarized on page two.

Live and online video based collaboration

eTutor Interactive Video/Audio/Content Benefits For Training Programs

eTutor Conferencing includes those features you'd expect like live video and 2-way audio, hand-raising, chat, content sharing, etc.; and many more. **eTutor** avoids the following managed training program shortcomings of WebEx-type solutions:

- Expensive to use WebEx-types for active training programs; **eTutor** is much more cost-effective, and gets even more so the more **eTutor** is used.
- WebEx-type solutions are just "islands" that cannot be auto-managed by an LMS like **eTutor** can, including: being auto-assigned; timed quizzes inserted by the LMS, to assure actual participation; tests auto-introduced and scored by an LMS; completion auto-tracking by the LMS for reporting; and more.
- WebEx-type presentations are hard to standardize; the **eTutor** electronic Instructor Guide allows enterprise-wide standardization, for consistency and quality control.
- Many more **eTutor** advantages exist. See page two.

eTutor Conferencing Provides Unique, Valuable Capabilities for Training Programs

<u>Unique eTutor Capabilities</u>	<u>Business benefits</u>
<ul style="list-style-type: none">•Both vertical and horizontal capabilities•Pre-integration with training systems<ul style="list-style-type: none">–Manage assignments (including from HR data feeds)–Integration with training calendar–Registration management–E-commerce–Quizzes & graphs–Surveys–Testing (pre-, post- and mastery test)–Passing grade enforcement–Curriculum management, including the tracking of off-line training activities–Automated certificates–Complete tracking & reporting capabilities•Hand-raising enablement by leader•Smart online instructor guide, with guide sharing (important for consistency)•Whiteboarding with collaboration, and markup capabilities by participants•Brain-storming (Post-it-notes metaphor)•Group talk enablement by leader•Universal video sharing of participants, controlled by leader•Break-out sessions•DICOM (medical) imaging support•Chat, Discussion Threads, VoIP, etc.•Recording capability for on-demand use	<ul style="list-style-type: none">•More value from the same platform•Pre-integrated training quality control vs. “islands” needing to be integrated by manual entry, or un-documented results (“checkmark” training is no longer sufficient)•Greater knowledge transfers “assurance” safety•Integrated auto-reporting<ul style="list-style-type: none">–Managerial reports–Learners transcripts–Results integrations with central systems such as LMS, HRIS, CRM, ERP, etc.•Improved business results<ul style="list-style-type: none">–Revenues–Cost reductions–Competitive advantage–Timeliness–Many other benefits•Ease of use by instructors, with rich media support; and instruction quality•Ideas & programs collaboration•Many other benefits

Seamless Innovation

Most technologies, like WebEx-type conferencing solutions, are ultimately replaced by innovative solutions that close usability gaps and provide enhanced capabilities...and value. **eTutor delivers a better solution for organizational training. More value.**

Go Beyond Web-Ex-type Training Limitations

Bring live conferencing and collaboration fully into the managed training envelope vs. being burdened by disparate, non-integrated “islands” of tools that require manual efforts to integrate and manage. Enjoy more virtual conferencing features as well. Sharply reduce travel and/or conferencing costs for training programs.
